

Learning through problem solving

GEOTECHNICAL ENGINEERING

A Practical Problem Solving Approach

Nagaratnam Sivakugan & Braja M. Das

A Title in J. Ross Publishing's Eureka Series

Geotechnical Engineering: A Practical Problem Solving Approach covers all of the major geotechnical topics in the most concise possible way adopting a hands-on approach with a very strong practical bias. Engineers are problem solvers. Developing problem-solving skills is one of the key learning outcomes expected of engineering students and this book provides just that. 60-70% of the book is devoted to practical problem solving and 30-40% covers fundamental concepts.

ABOUT THE

Eureka Series

The books in the J. Ross Publishing *Eureka Series* are engineering textbooks for a new generation. Similar to problem-based learning, the subject material is integrated with extensive worked examples, quizzes and review exercises. The writing style is lean and simple while not compromising on the breadth or depth of the subject matter. Books in the *Eureka Series* are written by renowned scholars with outstanding university careers who have also made significant contributions to teaching and learning.

About the Lead Author
