The definitive guide for business analysts!

SEVEN STEPS TO MASTERING BUSINESS ANALYSIS

Barbara A. Carkenord, CBAP

"In **Seven Steps to Mastering Business Analysis**, Barb Carkenord has gone beyond what we discuss in the Business Analysis Body of Knowledge (BABOK™) to address the real challenges business analysts face in the workplace. Those analysis techniques that most other books spend all of their space on are in here, but they are discussed only after looking at the needs of the stakeholders, the project, and the business and technical environment, as should be the case. If a solution isn't right for a business, it doesn't matter how well drawn the pictures are. I wish this book had been available years ago, but I'm glad that BAs have the opportunity to benefit from it today."

— **Kevin Brennan**, CBAP, Vice President, Body of Knowledge, International Institute of Business Analysis (IIBA™)
