

## Head-Related Transfer Function and Virtual Auditory Display

SECOND EDITION

**NEW!**

A one-of-a-kind reference for the acoustic community...

# Head-Related Transfer Function and Virtual Auditory Display

## SECOND EDITION

**Bosun Xie**

A title in J. Ross Publishing's  
*Acoustics: Information and Communication Series*  
Series Editor: Ning Xiang, Rensselaer Polytechnic Institute

This book systematically details the basic principles and applications of head-related transfer functions (HRTFs) and virtual auditory display (VAD), and reviews the latest developments in the field, especially those from the author's own state-of-the-art research group.

**Head-Related Transfer Function and Virtual Auditory Display, Second Edition** covers binaural hearing and the basic principles, experimental measurements, computation, physical characteristics analyses, filter design, and customization of HRTFs. It also details the principles and applications of VADs, including headphone and loudspeaker-based binaural reproduction, virtual reproduction of stereophonic and multi-channel surround sound, binaural room simulation, rendering systems for dynamic and real-time virtual auditory environments, psychoacoustic evaluation and validation of VADs, and a variety of applications of VADs.

*"This book provides a thorough and comprehensive analysis of issues relevant to HRTFs. Many of them have not been covered in such a detailed, clear way in any other book. Professor Xie has devoted a considerable amount of time and effort creating a work that appeals to readers' demands. The international acoustical community will be pleased to have access to its important scientific and technological content, now available with this English translation."*

—**Jens Blauert**, Internationally renowned expert in spatial hearing

Retail Price: \$99.95

**Special Promotional Price:**  
**\$89.95** when Ordered Direct  
from J. Ross Publishing

### Key Features

- Discusses and summarizes the basic principles and applications of head-related transfer functions and virtual auditory display
- Reviews the frontiers and latest approaches (modeling, calculations, rendering/display) in HRTF and VAD, useful for researchers, graduate students, and engineers in the field
- Applications from this research can be found in engineering, communications, multimedia, consumer electronic products, and entertainment
- More than 600 references are listed, encompassing the majority of literature in this field

### Head-Related Transfer Function and Virtual Auditory Display: Second Edition

Catalog no. JR0709, ISBN 13: 978-1-60427-070-9, 2013, 504 pages, 7 x 10

# HEAD-RELATED TRANSFER FUNCTION AND VIRTUAL AUDITORY DISPLAY, Second Edition

## Table of Contents

Chapter 1: Spatial Hearing and Virtual Auditory Display  
Chapter 2: HRTF Measurements  
Chapter 3: Primary Features of HRTFs  
Chapter 4: Calculation of HRTFs  
Chapter 5: HRTF Filter Models and Implementation  
Chapter 6: Spatial Interpolation and Decomposition of HRTFs  
Chapter 7: Customization of Individualized HRTFs  
Chapter 8: Binaural Reproduction through Headphones  
Chapter 9: Binaural Reproduction through Loudspeakers  
Chapter 10: Virtual Reproduction of Stereophonic and Multi-channel Surround Sound  
Chapter 11: Binaural Room Modeling  
Chapter 12: Rendering System for Dynamic and Real-time Virtual Auditory Environments (VAEs)  
Chapter 13: Psychoacoustic Evaluation and Validation of Virtual Auditory Displays (VADs)  
Chapter 14: Applications of Virtual Auditory Displays (VADs)  
Appendix A: Spherical Harmonic Functions  
Appendix B: Multipole Re-expansions for Calculating the HRTFs of the Snowman Model  
References  
Index

## ABOUT THE AUTHOR

**Bosun Xie** received a Bachelor degree in physics in 1982 and a Master of Science degree in acoustics from South China University of Technology in 1987. In 1998, he received a Doctor of Science degree in acoustics from Tongji University. Since 1982, he has been working at the South China University of Technology and is currently the Director and a professor at the Acoustic Laboratory at the School of Science. His research interests include binaural hearing, spatial sound, acoustic signal processing, and room acoustics. He has published over 150 scientific papers and owns 5 patents in these fields. Professor Xie is a member of the Audio Engineering Society (AES), a vice-chairman of the China Audio Engineering Society, and a committee member of the Acoustical Society of China.

## ORDER FORM

### Four Ways to Order:

**1. Mail** Complete this form and mail it with your Check, Credit Card Info, or Purchase Order to:

**J. Ross Publishing, Inc.**  
300 S. Pine Island Road, Suite 305  
Plantation, FL 33324

**2. Telephone** Call us at **954-727-9333 ext. 2**

**3. Fax** Fax this form or your purchase order to **561-892-0700**

**4. Online** Visit us on the Web at **www.jrosspub.com**

### Attention Professors:

If you wish to consider any book for class adoption, please contact J.Ross Publishing and ask about our 45-day Review Program.

### Ordering Information:

**US:** Orders must be prepaid in US dollars or accompanied by a company purchase order. Please add appropriate shipping and handling charges for each book ordered. Florida residents add 6.5% sales tax.

**Canada:** Orders must be prepaid in US dollars or accompanied by a company purchase order. Add \$20.00 shipping and handling for the first book and \$7.00 for each additional book.

**International:** Orders must be prepaid in US dollars. Add \$30.00 shipping and handling for the first book and \$10.00 for each additional book.

**Your Satisfaction Is Guaranteed:** If this book does not meet your needs, it may be returned to us in saleable condition within 20 days of receipt.

**To set up a Bookstore, Association, Cataloger, or Corporate account, contact:**

Stephen Buda at  
Tel: 954-727-9333 ext. 5  
Fax: 561-892-0700  
or e-mail: [salesandmarketing@jrosspub.com](mailto:salesandmarketing@jrosspub.com)
