# EARTH ANCHORS

## SECOND EDITION

**Braja M. Das and Sanjay Kumar Shukla**

Anchors are primarily used in the construction of foundations of earth-supported and earth-retaining structures. The fundamental reason for using earth anchors in construction is to transmit the outwardly directed load to the soil at a greater depth and/or farther away from the structure. Although earth anchors have been used in practice for several hundred years, proper theoretical developments for purposes of modern engineering designs have taken place only during the past 40 to 45 years. **Earth Anchors, Second Edition** summarizes most theoretical and experimental works directed toward the development of proper relationships for the ultimate and allowable holding capacity of earth anchors.

### About the Authors

**Braja M. Das, Ph.D.**, former Dean of the College of Engineering and Computer Science at California State University, has authored more than 250 technical papers and most recently he edited the *Geotechnical Engineering Handbook* (2010) and co-authored *Geotechnical Engineering* (2010). Dr. Das' primary areas of research include shallow foundations, earth anchors, and geosynthetics.

**Sanjay Kumar Shuka, Ph.D.**, has more than 20 years of teaching, research, and consultancy experience in the field of geotechnical engineering and geosynthetics. In addition, he has authored over 100 research papers and technical articles including 72 refereed journal publications.

Retail Price: \$79.95

**Special Promotional Price:**  
**\$69.95** when Ordered Direct  
from J. Ross Publishing

### Key Features

- Detailed coverage of horizontal, vertical, and inclined anchor plates, helical anchors, and anchor piles
- New material added throughout including a discussion on single-helix screw anchors in sand added to Chapter 6
- Two new chapters have been added: Suction and Caisson Anchors (Chapter 9) and Geo-Anchors (Chapter 10)
- Reviews the failure mechanism in soil located around the anchor as well as various theories to calculate the ultimate and allowable loads
- A summary section follows each chapter with self-assessment multiple-choice questions with answers, further enhancing comprehension
- Includes laboratory and field test results supplementing and verifying presented theories
- **WV™** offers presentation material that enhances understanding of the book's content and is ideal for instructors' use in the classroom and practitioners use in a business setting. Presented in a chapter-by-chapter format, additional examples, key points, and self-assessment questions are provided — available from the **Web Added Value™ Download Resource Center at [www.jrosspub.com](http://www.jrosspub.com)**

**Earth Anchors, Second Edition**

Catalog No. JR0778, ISBN: 978-1-60427-077-8, 2013, 352 pages, 6 x 9

# EARTH ANCHORS, SECOND EDITION

## Table of Contents

- Chapter 1: Earth Anchors—General
- Chapter 2: Horizontal Plate Anchors in Sand
- Chapter 3: Horizontal Plate Anchors in Clay
- Chapter 4: Vertical Plate Anchors
- Chapter 5: Inclined Plate Anchors
- Chapter 6: Helical Anchors in Sand
- Chapter 7: Helical Anchors in Clay
- Chapter 8: Anchor Piles
- Chapter 9: Suction Caisson and Drag Anchors
- Chapter 10: Geo-Anchors
- Index

## GEOTECHNICAL ENGINEERING HANDBOOK

**Geotechnical Engineering Handbook** is a one-of-a-kind definitive reference that offers expansive coverage of geotechnical engineering for civil engineering professionals. It brings together essential information related to the evaluation of engineering properties of soils, design of foundations such as spread footing, mat foundations, piles and drilled shafts, and fundamental principals of analyzing the stability of slopes and embankments, retaining walls, and the earth-retaining structures.

Catalog no. J837  
ISBN 13: 978-1-932159-83-7, 2010, 800 pages, 7 x 10  
**Special Direct Price \$109.95**

For more information and a complete listing of all of Braja M. Das's engineering titles, please visit [www.jrosspub.com](http://www.jrosspub.com)

## ORDER FORM

### Four Ways to Order:

- 1. Mail** Complete this form and mail it with your Check, Credit Card Info, or Purchase Order to:

**J. Ross Publishing**  
300 S. Pine Island Rd., #305  
Plantation, FL 33324

- 2. Telephone** Call us at **954-727-9333 ext. 2**  
**3. Fax** Fax this form or your purchase order to **561-892-0700**  
**4. Online** Visit us on the Web at [www.jrosspub.com](http://www.jrosspub.com)

### Attention Professors:

If you wish to consider any book for class adoption, please contact J.Ross Publishing and ask about our 45-day Review Program.

### Ordering Information:

**US:** Orders must be prepaid in US dollars or accompanied by a company purchase order. Please add appropriate shipping and handling charges for each book ordered. Florida residents add 6.5% sales tax.

**Canada:** Orders must be prepaid in US dollars or accompanied by a company purchase order. Add \$20.00 shipping and handling for the first book and \$7.00 for each additional book.

**International:** Orders must be prepaid in US dollars. Add \$30.00 shipping and handling for the first book and \$10.00 for each additional book ordered.

**Your Satisfaction Is Guaranteed:** If this book does not meet your needs, it may be returned to us in saleable condition within 20 days of receipt.

To set up a Bookstore, Association, Cataloger, or Corporate account, contact:

Stephen Buda at  
Tel: 954-727-9333 ext. 5  
Fax: 561-892-0700  
or e-mail: [salesandmarketing@jrosspub.com](mailto:salesandmarketing@jrosspub.com)

Please indicate quantities next to the title(s) ordered:

### EARTH ANCHORS SECOND EDITION

.....Catalog no. JR05778, ISBN: 978-1-60427-077-8, 2013, 352 pages, 6 x 9  
Special Direct Price \$69.95 each.

### GEOTECHNICAL ENGINEERING HANDBOOK

.....Catalog no. J837, ISBN: 978-1-932159-83-7, 2010, 800 pages, 7 x 10  
Special Direct Price \$109.95 each.

**Shipping & Handling:** Add \$6.95 for the first book ordered, and \$2.50 for each additional book.

**Tax:** Florida residents add 6.5% sales tax.
