Innovative green technology!

Sulfur Concrete for the Construction Industry

A Sustainable Development Approach

Abdel-Mohsen Onsy Mohamed and Maisa El Gamal

About the Authors

Professor A. M. O. Mohamed earned his M. Eng. and Ph.D. from McGill University, Montreal, Canada. In 1998, he joined the United Arab Emirates University, where he is currently the Director of Research, Research Affairs Sector, and Professor of Geotechnical and Geoenvironmental Engineering. Professor Mohamed has published more than 200 papers in refereed journals and conference proceedings.

Dr. Maisa El Gamal received her M.Sc. degree in material science from Alexandria University, Egypt and her Ph.D. in polymer science from Tanta University, Egypt. In 2000, she joined the Research Affairs Sector, United Arab Emirates University, where she is currently employed as a senior research associate.

Sulfur construction materials can offer improvements over more traditional materials, especially in specific applications. These materials include sulfur concrete and sulfur-extended asphalt pavements as well as pre-cast concrete components, extrusions, and cast-in-place forms. This one-of-a-kind book discusses the basic properties and behavior of sulfur cement and concrete materials and, based on these properties, new sulfur market applications are evaluated and the technological aspects of material production are presented.

Retail Price: \$149.95

Special Promotional Price:
\$134.95 when Ordered Direct
 from J. Ross Publishing

Key Features

- Reviews acceptable methods of disposing of unneeded sulfur without compromising environmental protection
- Reveals the advantages of using modified sulfur concrete materials for sub-ground and sub-marine structures, and immobilization of hazardous wastes
- Describes the unique features of sulfur construction materials such as corrosion resistance, low moisture penetration, high thermal and mechanical performance, and long-term stability in various environments
- Discusses sulfur concrete process design for use in waste management practices (barrier systems for waste containment, stabilization/solidification of waste, etc.)

Sulfur Concrete for the Construction Industry
 A Sustainable Development Approach

Catalog no. JR0051, ISBN: 978-1-60427-005-1, 2010, 448 pages, 6 x 9, hardcover

SULFUR CONCRETE FOR THE CONSTRUCTION INDUSTRY

Table of Contents

Chapter 1: Sustainable Development for the Construction Industry

Chapter 2: Sulfur Production and Uses

Chapter 3: Sulfur Properties

Chapter 4: Elemental Sulfur Concrete

Chapter 5: Sulfur Cement

Chapter 6: Sulfur Concrete

Chapter 7: Technological Aspects of Sulfur Concrete Production

Chapter 8: Sulfur Modified Asphalt

GEOTECHNICAL ENGINEERING HANDBOOK

Edited by Braja M. Das

The **Geotechnical Engineering Handbook** brings together essential information related to the evaluation of engineering properties of soils, design of foundations such as spread footings, mat foundations, piles, and drilled shafts, and fundamental principles of analyzing the stability of slopes and embankments, retaining walls, and other earth-retaining structures. It also covers soil dynamics and foundation vibration to analyze the behavior of foundations subjected to cyclic vertical, sliding and rocking excitations, environmental geotechnology, and foundations for railroad beds.

Catalog no. J837

ISBN: 978-1-932159-83-7, 800 pages,
7 x 10, hardcover, 2010

ORDER FORM

Four Ways to Order:

- 1. Mail** Complete this form and mail it with your Check, Credit Card Info, or Purchase Order to:

J. Ross Publishing
300 S. Pine Island Rd., #305
Fort Lauderdale, FL 33324

- 2. Telephone** Call us at **954-727-9333 ext. 2**

- 3. Fax** Fax this form or your purchase order to **561-892-0700**

- 4. Online** Visit us on the Web at www.jrosspub.com

Attention Professors:

If you wish to consider any book for class adoption, please contact J. Ross Publishing and ask about our 45-day Review Program.

Ordering Information:

US: Orders must be prepaid in US dollars or accompanied by a company purchase order. Please add appropriate shipping and handling charges for each book ordered. Florida residents add 6.5% sales tax.

Canada: Orders must be prepaid in US dollars or accompanied by a company purchase order. Add \$20.00 shipping and handling for the first book and \$7.00 for each additional book.

International: Orders must be prepaid in US dollars. Add \$30.00 shipping and handling for the first book and \$10.00 for each additional book ordered.

Your Satisfaction Is Guaranteed: If this book does not meet your needs, it may be returned to us in saleable condition within 20 days of receipt.

To set up a Bookstore, Association, Cataloger, or Corporate account, contact:
